IDAHO RUSSET

TINY Taters®

New Item: Tiny Taters

Tiny Taters® are tiny russet potatoes that are tasty and healthy, just like the big ones. They are perfect for appetizers, small plates, side dishes, hand-helds, and upscaled comfort foods. Plus, with year-round availability, you can buy Tiny Taters® any time of the year!

Use Cases

Tiny Taters® are as versatile as their larger russet counterparts, perfect for an array of dishes from appetizers to sides. These small russets are ideal for making delicious appetizers, side dishes, or small plates.

Use them to create shareable, crowd-pleasing foods such as tiny baked potatoes, petite hasselback potatoes, mini fondant potatoes, or tiny smashed potatoes. Each bite-sized piece is an opportunity to showcase culinary creativity in both casual and upscale settings.

Tiny Taters® also help you reduce cook and prep times. Their smaller size means they can be cooked faster than larger potatoes, which is perfect for skin-on mashed potatoes, quick roasting for a crunchy side, or adding substance to hearty roasts and soups. This efficiency in preparation allows for more focus on intricate flavor pairings and presentation.

Item	Pack	Size	Grade	Carton Count
